

Rina Volovich

(052) 548-2922 | rinavolovich@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Detail-oriented and determined Full Stack Developer with a background in corporate operations and finance in a global IT corporation. My enthusiasm for coding developed as I strived to improve my organization's efficiency and processes in light of the continuous introduction of new softwares and tools. By leveraging the priceless knowledge gained from my past experiences, I bring a gapless, cross-functional perspective to the development process.

SIGNATURE STRENGTHS

Interpersonal:

Contractual Negotiations, Cross-Functional Mediation, Superior Verbal & Written Communication, Excellent at Conflict Resolution & Troubleshooting, Enthusiastic Team Player, Detail-Oriented Problem Solver

Redux Robots: [Github](#) | [Demo](#)

React app that filters API-generated robot cards by name

- Used Redux to clean and significantly reduce large volumes of code

PROFESSIONAL EXPERIENCE

IT Purchasing Specialist, Check Point Software Technologies Ltd., Tel Aviv, Israel

Feb/2020–Nov/2020

- Supported IT initiatives by understanding all processes, stakeholders and led cross-functional teams to develop meaningful requirements throughout the corporation's IT organizations
- Managed the process of procuring, maintaining and renewing enterprise software
- Strategic procurement of hardware as required for ongoing business operations, initiatives and projects
- Conducted complex negotiations, tenders, bid comparison and technical tender analysis in collaboration with C-level company decision-makers, resulting in optimal cost, quality and delivery
- Prioritized, organized and coordinated a variety of projects simultaneously
- Managed supplier relationships and strived to act as primary point of contact to ensure continuity of IT goods and services

Accomplishments:

- Total direct savings for the company: over \$500,000
- Total indirect savings from profit-sharing and detailed vendor investigations: over \$300,000
- Completed tasks that could not be done by anyone else on the team, including creating a detailed mapping of the many internet lines from different providers in the Israel offices which involved investigating decades into the past

General Purchasing Coordinator, Check Point Software Technologies Ltd., Tel Aviv, Israel

Jan/2019–Feb/2020

- Responsible for managing purchasing initiatives end-to-end by understanding the scope required and offering, negotiating and delivering, the requesting party the optimal and most cost-effective solution
- Collaborated with Accounting and Legal departments to ensure accurate budgeting and adherence to regulations
- Handled and negotiated the best possible terms for the procurement needs of both domestic and global company entities for HR, Marketing, Sales, IT, Legal and Accounting departments
